TIGER ANALYTICS

OUR VISION

Our vision is to build the world's best advanced analytics firm that solves high impact business problems using data. The only way to achieve this is by attracting exceptional people and giving them the right guidance, opportunities, and freedom to excel in their areas of interest.

OUR VALUES

Respect

Treat everyone with respect regardless of their point of view – absolutely no exceptions.

Learning

Learn continuously – learn from others and help others learn.

Excellence

There is no relative evaluation. We compete against ourselves to continuously get better.

Freedom

Don't be bound by policies and processes. Create an authentic and relaxed work environment.
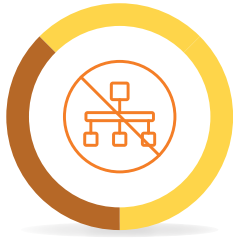

OUR WORK

We work with several Fortune 500 companies, most of them leaders in their industries. We help them stay at the cutting edge by bringing in state-of-the-art data-driven solutions to address their business problems.
